

launches. And the effectiveness of our bombing was just starting to see the improvements enabled by the Global Positioning System. On the first night of the war, Conventional Air-Launched Cruise Missiles descended on Baghdad with deadly accuracy after using Global Positioning System to update their own internal navigation.

Desert Storm gave us a preview of space-based capabilities, and in the years that followed the innovative men and women of Air Force Space Command continued to refine these capabilities and experiment with the best way to employ them. Operation Enduring Freedom showed the fruits of their hard effort. Communications and GPS satellites enabled the tremendous feat of a B-52 providing close air support to a soldier on the ground within minutes of the soldier calling in a target.

Today Air Force Space Command is a unique command within the Air Force, responsible for both acquisition and operation of Air Force satellite systems, launch vehicles, and missiles with over 30,000 people stationed around the globe. The role of Air Force Space Command is continuing to grow as they develop even more sophisticated systems such as SBIRS, the Space Based Radar, and advanced communication satellites, while expanding into areas such as space control. I congratulate Air Force Space Command on a very successful 20 years and wish them the very best for the next twenty. ●

REPORT CONCERNING THE JUSTIFICATION OF THE AUSTRALIA GROUP AND THE CONVENTION ON THE PROHIBITION OF THE DEVELOPMENT, PRODUCTION, STOCKPILING AND USE OF CHEMICAL WEAPONS AND ON THEIR DESTRUCTION—PM 106

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report; which was referred to the Committee on Foreign Relations:

To the Congress of the United States:

Consistent with the resolution of advice and consent to ratification of the

Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction, adopted by the Senate of the United States on April 24, 1997, I hereby certify pursuant to Condition 7(C)(i), Effectiveness of the Australia Group, that:

Australia Group members continue to maintain equally effective or more comprehensive controls over the export of: toxic chemicals and their precursors; dual-use processing equipment; human, animal, and plant pathogens and toxins with potential biological weapons applications; and dual-use biological equipment, as that afforded by the Australia Group as of April 25, 1997; and

The Australia Group remains a viable mechanism for limiting the spread of chemical and biological weapons-related materials and technology, and the effectiveness of the Australia Group has not been undermined by changes in membership, lack of compliance with common export controls and nonproliferation measures, or the weakening of common controls and nonproliferation measures, in force as of April 25, 1997.

The factors underlying this certification are described in the enclosed statement of justification.

GEORGE W. BUSH.

THE WHITE HOUSE, September 4, 2002.
